Eduard Korytnyk
Front-end Developer

Driven and motivated, I am interested in IT and everything in its orbit. I fascinated by web programming, e.g. developing apps and building websites.
As this area complements my studies, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

2018
Computer engineering
Ternopil National Economic University

2016
Software development
Kamianets-Podilskyi Industrial College

Language

English - intermediate B1

Ukraine - Native

Projects Experience

In my personal projects, I have utilized **JavaScript**, **React**, **Node.js**, and various other technologies such as **Redux**, **Next**, and **Firebase** to build over 20 applications. I have a strong passion for learning and exploring new technologies, and have also dabbled in Telegraf.js in my projects. My experience with these technologies has allowed me to develop a diverse skill set and the ability to quickly adapt to new environments.
In addition to my experience with JavaScript, React, Node.js, and other technologies, I have also gained proficiency in **HTML**/**CSS** and have extensive experience with layout design using **Flex** and **Grid** as well as the **Bootstrap** framework. These skills have been integral in the development and design of my personal projects, and have allowed me to create visually appealing and user-friendly applications.

About Me

GOAL

I want to be in a good team, where I could improve my skills and use them to interesting tasks. I'd like to work on HTMl layout and JS development. But, I think, for this, I need a good team lead, who could show me the best practices of work.

DESIRED POSITION

Trainee/Junior Front-end developer

INTERESTS

I spend most of my free time studying. I also like to walk with friends and sometimes play board games. Also I'm learning to play the piano.
